

Change of Stopping Arrangements - Service 6 Woodlands

From 8th January 2012, Stagecoach Service 6 will revert to calling at the Woodlands roundabout instead of operating via Crispin Drive.

Following representations from residents and taking feedback from bus users in to consideration, Bedford Borough Council has held discussions with Stagecoach in an attempt to find a satisfactory resolution that takes in to account the needs of both residents on the route and the needs of bus users.

Stagecoach has agreed to a request from the Borough Council for the service to revert to the previous routing whereby the bus serves the estate by stopping at the Drive roundabout. This will continue to run on the existing high frequencies.

Bedford Borough Council will continue to supply the shopping minibus service that runs from Anjulita Court on weekdays and Saturdays.

We will continue to see if a long term solution can be found that enables the desires of bus users for a service that better penetrates the estate to be met without causing the difficulties residents have experienced with the current service. We will of course ensure that should any such proposals come forward, they are fully communicated with the community.

Minor Timetable Change - Route 28

From Tuesday 3rd January, there will be a minor change to the 28 service timetable. Following passenger feedback, the first journey is being re-timed to arrive in Bedford earlier.
